## MICRO-USB ( ++- )

NOTE: An adult must charge the device and connect to a computer Use the included Micro-USB Cable to connect the device to your

computer to transfer photos and videos, charge the device and update the firmware 1. Open the cover over the Micro-USB port on L.O.L. Surprise!™ HD Studio

- Camera
- 2. Insert the Micro-USB side of the cable into the port. 3. Insert the large USB end into a USB port on your computer.

NOTE: The camera will not be accessible when the Micro-USB is plugged in.

## BATTERY CHARGING

Prior to use, it is recommended that you fully charge L.O.L. Surprise!™ HD Studio Camera for optimal performance.

**NOTE:** The device should be OFF prior to charging. To power OFF, hold the home button for about 5 seconds, until a sound plays and the device shuts off.

1. Insert the larger end of the Micro-USB cable into a USB port on your compute

- 2. Lift open the cover over the Micro-USB port on L.O.L. Surprise!™ HD Studio Camera and insert the Micro-USB cable into the port.
- 3. A battery symbol will turn green on the screen once the device is fully charged. Remove the device from the Micro-USB cable. Do not over charge the battery
- 4. You can now turn on the device and begin playing.

Open the port cover on the side of L.O.L. Surprise!<sup>™</sup> HD Studio Camera and plug the Micro-USB end of the cable into the port. Plug the charging cable into the USB port on your computer.

## NOTE: See page 23 for more **BATTERY INFORMATION**.

## SYSTEM REQUIREMENTS

Compatible systems include Microsoft® Windows XP, Windows® 7, Windows® 8, and Windows® 10 Operating System or a Macintosh Computer with macOS X version 10.13 and 10.14. Other operating systems may be compatible or eligible for upgrade to a compatible system. USB port required.

## MICRO-SD MEMORY CARD

To store more photos and videos, insert a microSD memory card into the slot above the USB port. (Micro-SD memory card is not included.) See page 3 for more information on the memory storage It is recommended to use a 32GB microSD card with the camera.

Open the port cover on the side of L.O.L. Surprise!<sup>™</sup> HD itudio Camera and insert a microSD memory card **NOTE**: When adding a microSD card, the camera will automatically restart.

# STARTING UP L.O.L. Surprise!<sup>™</sup> HD Studio Camera

To turn on the device, press and hold the home button on the front of the device for about 5 seconds until the screen turns on and a sound plays.

- When you first start the camera, ensure the firmware is up-to-date. Make sure the device is fully charged (see page 4).
- To begin, you'll be prompted to set the language, date format, time,

and name of the device. For more information on how to set these features, see SETTINGS on pages 19-20.

## WAKING UP L.O.L. Surprise!<sup>™</sup> HD Studio Camera

After about a minute of inactivity, the camera will turn off. Press the home button once to wake up the device.

## FIRMWARE UPDATE

NOTE: The device has to have a minimum of 20% battery power when updating the firmware. It is recommended to insert a microSD card (not included) with more than 50MB free space to begin the update.

Before beginning, it is important to check for any available firmware updates so that the L.O.L. Surprise!™ HD Studio Camera is operating optimally. To update the firmware on your device: 1. On your computer, visit WWW.MGAE.COM/LOLSURPRISE-CAMERA

- and download the Firmware Installer. 2. Turn off the camera. To turn off the device, press and hold the home
- button on the front of the device for about 5 seconds until a sound plays and the screen turns off.
- 3. Follow the steps on page 4 to connect the Micro-USB Cable to the camera and your computer.
- 4. On the Firmware Installer, click on Firmware Update. A progress bar will appear on your computer's screen, or, if your watch is up-to-date, it will say "Firmware is up to date." If it is up-to-date, properly eject the device from your computer
- 5. Once the progress bar on your computer shows it is complete, properly eject the device from your computer. Then, remove the Micro-USB Cable
- 6. Turn on the camera. To turn on the device, press and hold the home button for about 5 seconds. A firmware update screen will be displayed on the device. Press the check mark and wait for the progress bar to finish loading to complete the firmware update. NOTE: After the camera cycles back on, it is recommended you turn the

device off and back on again to confirm the update was successful.

To attach the selfie stick/tripod, twist the screw on top of the stick into the bottom of the camera. Keep turning until it feels secure.

To convert the selfie stick into the tripod, pull the legs out.

Push them back in to revert

## USING THE CAMERA

The camera can be used two ways. To use it as a selfie camera, flip up the camera lens. When using in its front-facing position, slide it back down.

**Selfie Camera Position** 

## NOTE:

For your security, the camera and microphone on your device will be disabled when connecting to a computer with the Micro-USB Cable, as the device must be off. Properly eject the device from your computer, unplug the Micro-USB cable, and turn the device on before using these features.

## **TRANSFERRING FILES FROM THE CAMERA**

The device should be OFF prior to transferring files. To power OFF, hold the home button for about 5 seconds until a sound plays and the screen turns off.

Plug the device into your computer using the included Micro-USB cable, and follow the instructions on page 4.

On your computer, you will see a removable drive called LOLSURPRISE CAMERA. Click on this drive to transfer files from the device to your computer using the folders called PHOTOS and VIDEOS. Copy and paste the files in these folders to the desired location on your computer. TIP: Photo and video files will not be deleted from L.O.L. Surprise!™ HD Studio Camera until you manually delete them on the device by pressing the trash can button in the photo and video apps.

You cannot load photos or videos from other devices onto the camera, as the file types may not be compatible.

NOTE: Once the device is connected to your computer, do not disconnect the camera or the cable while files are transferring. Once your camera completes the transfer, properly eject the device from your computer. Then, physically disconnect the cable and the camera

## **USING THE SELFIE STICK/TRIPOD**

L.O.L. Surprise!<sup>™</sup> HD Studio Camera can be used one of three ways: handheld device, selfie stick or as a tripod. Follow the instructions below to use with the selfie stick or tripod.

## **KEYPAD BUTTONS**

## **Home Button**

Press and hold the home button on the keypad of the camera for about 3 seconds to turn it on. To turn off the camera, press and hold the button again for 3 seconds. In normal play, pressing the home button will return to the previous screen. Continuously pressing it will go back to the main menu.

## **Directional Buttons**

Press the left, right, up or down arrows to navigate through the screen's icons.

## Delete Button

Press to delete pictures or videos. After pressing, two icons will appear. A check mark and an X icon. Check mark is to delete and the X icon will cancel the request to delete.

## **Options Button**

If options icon is visible in the lower left corner, press the Options button to discover available options.

## 

This toy produces flashes that may trigger epilepsy in sensitized individuals. A very small percentage of people, due to an existing condition, may experience epileptic seizures or momentary loss of consciouspess when viewing certain light patterns or flashing lights. While this product does not contribute any additional risks, it is recommended that parental supervision is enforced during play. If you experience any dizziness or altered vision, disorientation or convulsions, IMMEDIATELY discontinue use and consult a physician. Focus on screens in close proximity for an extended amount of time may cause fatigue or discomfort. For every one hour of play, take a 15 minute break, or take breaks more frequently as

## CARE AND MAINTENANCE

 Always keep the port cover closed during use to prevent water or debris from entering the device. Only open the port cover to connect the device to your

• Keep the device clean by wiping it off with a slightly damp cloth and drying it thoroughly. Do not place the device under running water or use harsh chemicals or abrasive materials to clean.

 Wipe the accessories with a damp cloth regularly to keep them clean. Always air dry; do not subject to heat.

 Keep the device and accessories out of direct sunlight for long periods of time. Do not expose the device or accessories to direct heat sources • Do not drop the device on a hard surface to prevent damage.

 Keep the camera lens clean. If pictures are blurry, it could be because dust or dirt is covering the camera lens. Wipe clean with a dry, soft cloth and/or blow gently on the lens to remove any debris.

If you do not plan to use the device for an extended period, it is recommended that you turn the device off. Regularly charge the battery when not in use to ensure the battery accepts a charge. See BATTERY LIFE AND MAINTENANCE on page 23.

## **SPLASHPROOF**

While your device can withstand splashes from washing your hands or dancing in the rain, it is not recommended to submerge the device in water. To prevent water damage:

1. Always ensure the cover over the Micro-USB port is completely closed to prevent water from getting inside the camera.

2. Do not place the device under running water

3. Do not submerge in water or use while swimming.

## **RESTARTING CAMERA**

To restart the camera, move the switch under the device to the OFF position and then back to the ON position.

## LiPo BATTERY SAFE USAGE

This device is equipped with a Lithium Polymer (LiPo) rechargeable battery. Please pay attention to the following cautions for safety use:

Before recharging, allow the battery to cool for at least 10 minutes after use

 Do not dispose of the battery in fire or extreme heat. Do not use or leave the battery near a heat source such as a fire or a heater.

• Do not strike or throw the battery against hard surfaces. Do not immerse the battery in wate

Keep the battery in a cool, dry place

• When recharging, only use the Micro-USB Cable specifically included for that purpose.

· Do not over-charge the battery.

• Do not directly solder the battery and pierce the battery with a nail or other sharp object.

Do not disassemble or alter the battery.

- Charge the battery as necessary. Failure to charge the battery frequently may result in a battery that will no longer accept a charge · Do not transport or store the battery with metal objects such as necklaces,
- hairpins, etc. • Please recycle a used battery after covering the battery wires/terminals with electrical tape or by inserting it into an individual poly bag. Check local laws
- and regulations for recycling and/or disposal information Under the environment with electrostatic discharge, the product may

malfunction and require the user to reset the product by turning it off and back on again.

· Rechargeable batteries are only to be charged by an adult

## **BATTERY LIFE AND MAINTENANCE**

Check the battery charge level on the quick menu view. If the battery is vellow, it's time to charge soon. If the battery is red, charge the battery as soon as possible.

Charge the battery regularly to maintain optimum performance, even when the device isn't regularly in use. For example, charge the device at least once every six months. Turn the device OFF before charging the battery. Keep the device OFF when the device will not be in use for an extended period.

NOTE: L.O.L. Surprise!<sup>™</sup> HD Studio Camera will

of with other household waste. Please use designated collection points or recycling facilities when disposing of the item. Do not treat old batteries

ehold waste. Take them to a designated recycling facility.

This camera contains a battery that is non-replaceable. Do not attempt to open the device

unless you are permanently disposing the device. Opening the device for any other reason

could void the warranty. Battery removal is permanent, and the device will no longer work

An ADULT must remove the battery for proper disposal. Always wear protective safety

Remove the bottom case.

Use a small Phillip's screwdriver (not included) to remove the four screws on the front of the camera

Use scissors to carefully cut the black and red wires ONE AT A TIME. Cover the wires/terminals with electrical tape and properly dispose of the battery.

## FCC COMPLIANCE

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: • Reorient or relocate the receiving antenna.

· Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

• Consult the dealer or an experienced radio/TV technician for help. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

Caution: Modifications not authorized by the manufacturer may void users authority to operate this device.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1) This device may not cause

interference. (2) This device must accept any interference, including interference that may cause undesired operation of the device. CAN ICES-3 (B)/NMB-3(B).

Frequency band: 2402-2480MHz Max. transmit power: -0.46 dBm
